

## ***Recommended Clinical Course of Study***

LVI has developed a Core Curriculum consisting of seven courses that serve as the roadmap for your path to success in becoming a Full Mouth Doctor. This Core Curriculum consists of:

- Core I: Advanced Functional Restorative Dentistry
- Core II: Advanced Functional Aesthetics
- Core III: Advanced Adhesive Aesthetic Dentistry
- Core IV: Advanced Occlusal and Restorative Principles
- Core V: Comprehensive Aesthetic Reconstruction
- Core VI: Case Management
- Core VII: Full Mouth Reconstruction

### ***LVI Fellow***

LVI Fellow is the distinction awarded to those who have completed the above described LVI Core Curriculum which includes a minimum of 278 continuing dental education hours of training in advanced aesthetics, and neuromuscular science, and who has successfully completed a comprehensive examination. Once the LVI Fellow status has been achieved, doctors are eligible to participate in the LVI Full Mouth Public Relations Campaign. The purpose of this campaign is to educate the consumer about Neuromuscular Dentistry and how it may benefit them in relieving or eliminating symptoms they may be experiencing. The campaign directs the consumer to [www.leadingdentist.com](http://www.leadingdentist.com) where LVI dentists who have completed over 278 hours in advanced training in the study of neuromuscular science, may be listed, along with contact information. The consumer then will be able to consult an informed dentist in their area. LVI Fellows are also eligible to receive 5% off of future course registration prices.

### ***LVI Mastership***

The LVIM distinction is awarded to those that have completed all qualifications for LVI Fellow and who have demonstrated proficiency after submission of three clinical cases. The cases are evaluated by a committee appointed by LVI who look for a true understanding of comprehensive aesthetics and functional dentistry.

The intent of the LVIM program is to reward and encourage the development of clinical enterprise and continued learning in the realm of Aesthetic Functional Reconstruction. The program is designed to create and provide a learning and validation process where the applicant can determine if he or she has an adequate understanding of the restorative and occlusal concepts taught at LVI.

The objective of the LVIM program is to recognize those individuals who can provide a high level of comprehensive aesthetic functional diagnosis and treatment. It also recognizes their efforts to promote the advancement of comprehensive dentistry.

As the number of LVI Fellows treating musculoskeletal dysfunction of the head and neck increases, LVI has recognized the need to implement an accreditation process to assess competency, ensure continuing education knowledge, and maintain a high standard of care among those treating their patients with comprehensive dentistry principles.

The LVI Accreditation Program allows you to have a Mastership of Aesthetics and TMD Dentistry distinction among your colleagues.

For more information on the LVI Mastership, or to request an application, please contact an LVI Concierge at 888.584.3237 or [concierge@lviglobal.com](mailto:concierge@lviglobal.com)
