888.584.3237

Course Introduction

Congratulations on your decision to continue your education at LVI to become the best dentist you can be!

CORE VI LIVE Live: Finalization of Physiologic Rehabilitation Case

- ▶ Predictably prepare 28 units at the same time in less than five hours.
- ▶ Predictably seat 28 units at the same time in less than four hours.
- ▶ Accurately determine a patient's vertical dimension and determine the position scientifically.
- ▶ Be able to prove that your final position is the best for your patient.
- ▶ Accurately equilibrate your case for maximum muscle function and then prove it.
- ▶ Present full mouth cases to your patients and have them accept the treatment.

In this course, you will:

- ▶ Prepare the ENTIRE mouth in one sitting, impress and temporize in the new position that you have scientifically determined to be the best for your patient.
- ▶ Seat restorations in an ENTIRE mouth in one appointment, with predictability and ease using the tried and proven techniques taught at LVI.
- ▶ Use scientific coronoplasty techniques to finish the case to maximum efficiency and function. Then you will see it proven using scientific instrumentation.

In order for this program to flow smoothly for you, it is imperative to be fully prepared for this course. Please read the guidelines listed in this packet carefully and thoroughly.

Auditors do not need to bring a patient as they do not participate in the hands-on portion of the course. Auditors will observe during the clinic times.

Patient Selection

Since you will be seating a full mouth case in one sitting, it is important that you select the proper patient. Please read the following carefully to determine if your patient meets the requirements:

- ▶ Do not choose a difficult patient. Someone who is extremely nervous, demands nitrous, can't sit for a long time or has a low pain tolerance should not be considered.
- ▶ Patients with a history of pain as well as TMD signs and symptoms must be stabilized using orthotic therapy prior to restoring. Some patients will need to wear an orthotic for an extended period of time before they are pain free and stabilized. Plan for that when choosing your patient and scheduling the course.
- ▶ Cases with bridges are acceptable, but not cantilever bridges or arches with missing molars that are not going to be replaced.
- ▶ Implant placement cases are not allowed. Please consider taking the Implants II live patient program for these patients. Restoring implants as part of the treatment will be allowed with approval from Core VI Live Course Director, Dr. Heidi Dickerson (hdickerson@lviglobal.com). Please note that you will need to bring all of your own restorative implant tools as LVI is unable to provide them for you.
- ▶ All endodontic treatment should be done prior to the program as well as all perio surgery other than tissue re-contouring. Complete all general clean up if unsure of tooth involvement. Tissue health should be excellent.
- ▶ All cases must be mounted on an articulator designed for HIP evaluation.

Risk Management

The items below **must** be completed and faxed or mailed to LVI Global prior to case approval.

- Student Information Form
- Agreement for the Dentist Participant
- Release of Liability Form
- Information Verification
- Patient Informed Consent
- Patient Education Form Regarding Full Mouth Reconstruction
- Records Release & Consent
- Documentation of Work Done at Home (please answer every element of question # 3)
- Medical History
- Periodontal Evaluation
- LVI S.M.I.L.E.S. Evaluation Form (optional)
- Musculoskeletal – Occlusal Signs Exam Form (optional)
- Case Approval Worksheet, FULLY completed
- A set of models mounted to the Physiologic bite (see specific requirements on page 5)
- Digital photographs (see 'Core V & Core VI Live Required Photographs' sheet attached)
- Full mouth radiographs OR Panorex plus Bitewings in digital format (see 'Core V & Core VI Live Required Photographs' sheet attached)
- Tomograms in Natural CO and Orthotic (see specific requirements on page 5)
- Have an original certification of licensure sent from your state board to: LVI Global
Attention: Core VI Live C/O Risk Management 1401 Hillshire Dr. Suite 200, Las Vegas, NV 89134
- Current copy of your malpractice/liability insurance with policy expiration date valid through seat date of this course.

Required for completing Core V patient in Core VI Live (A lower arch only case cannot be evaluated without these scans

- K7 scans including 10 Rest/CO Rest, 11 and 4/5 where the bite was taken

In the absence of the above requirements, LVI cannot undertake the approval of a case.

Once your case has been reviewed and accepted, you will receive notification of your clinic assignment and instructor. We advise that you not make any travel plans until the case is officially approved by Core VI Live Course Director, Dr. Heidi Dickerson.

Items we would like to have

- If you have a K7, please send the scans outlined in the 'Preferred K7 Scans for Core VI Live Case Submissions' document included in this packet. You can send them to Risk Management via email at riskmanagement@lviglobal.com. Directions on how to send K7 scans via email are also included in this packet.

Models:

Please send a set of models mounted in the Physiologic position of the case you plan to bring to the course at LVI Global. Take your impressions with a polyvinyl siloxane material, not alginate. Pour your models up in stone (i.e.: yellow, green, and pink). Please label the models with your name as well as your patient's name. Your case must be approved before your lab can begin your wax-up, so send your case information to LVI as soon as possible. Your laboratory will require a separate set of polyvinyl impressions and a Physiologic bite transfer to fabricate your diagnostic wax-up.

Please mail your models & completed case approval worksheet to:

LVI Global
 ATTN: Core VI Live (Course Session Date and Your Name) C/O Risk Management
 1401 Hillshire Dr. Suite 200, Las Vegas, NV 89134

Tomograms:

Please see example of an acceptable tomogram – they must be sent to LVI no later than 4 weeks prior to the course start date. If we do not receive them prior to this deadline, you will be required to have this service done on campus on the first day of the course.

Tomograms MUST be taken of your patient in two positions:

- Existing CO
- In NM position using any of the following; tens or K7 bite registration, fixed or removable orthotic.

If you are unable to get tomograms in your area, you can have them taken at LVI. The fee is \$395 and must be paid for by credit card from the doctor only. We cannot accept payment directly from your patient. Please email riskmanagement@lviglobal.com for more information and to schedule an appointment.

Other Important Information:

- An LVI Esthetic Preparation Bur Kit (Axis LS-7541) will be supplied to you in the clinic during the prep session. Don't hesitate to bring anything else such as your own favorite instruments, favorite burs, loupes, light source, etc.
- LVI is not able to write prescriptions for your patient, so if you anticipate a need for any prescription medication while at LVI, please make arrangements for your patient in advance.

Patient Discussion

Please read this prior to reviewing the Risk Management Documents with your patient.

It is imperative that your patient is thoroughly informed of the procedures to be performed on them here at LVI Global. It is very important that your patient realizes that although you are a licensed dentist that you will be in a training situation and applying newly learned techniques. Your patient should always understand that they have options to the proposed treatment for this program including no treatment at all. It must be explained to your patient that they have the right to change their mind and refuse treatment prior to the treatment plan being started. Do not leave any portion of the Risk Management forms blank. Please make certain the patient consent form is completed and explained before being signed by your patient.

As a doctor, it is important that you and your patient understand that there is always some potential harm in having any procedure performed. The more forthright you are in relaying and explaining the possibility of adverse effects to your patient, the better protected you both will be; no matter how obscure you may perceive these effects to be.

As of January 2008, we are now required to obtain a certification of licensure, sometimes referred to as verification of license or letter of good standing. This must be requested from your state board and mailed directly to LVI Global. This is not to be confused with your certified license, as those are only sent to you and should stay at your practice. We will keep your license on file and update it online for you for future live patient courses you attend - provided your state has this feature available.

Please do not hesitate to contact us with any questions or concerns you may have.

I hereby verify and confirm that I am a patient of record of Dr. _____ (“my Doctor”). I agree and hereby consent to my Doctor performing dental work for and upon me as part of a “live patient” continuing dental education training course my Doctor will be attending at Las Vegas Institute for Advanced Dental Studies (“LVI”) in Las Vegas, Nevada. I understand the primary purpose of this continuing dental education course is to educate and train my Doctor, in a “live patient” training situation, on techniques and procedures to be performed upon me in my Doctor’s office and in the clinic at LVI. I further state that the nature and extent of the techniques, procedures, and treatment I will be receiving (my “Treatment Plan”) have been explained to me by my Doctor. My Doctor has informed me about the potential risks of using the techniques which will be applied by my Doctor as part of my Treatment Plan, and I understand my Doctor may have limited experience with such techniques he/she will be learning at LVI. I further understand that my Doctor, who will be performing such dental services for and upon me during or as part of his/her participation in a “live patient” course at LVI, will be doing so as an independent professional, and my Doctor will not be performing such services in any way as an agent or employee of LVI or any benefit of LVI or any of its employees.

My Doctor also has informed me of alternative procedures that are available to me and my options with respect to each such available alternative procedure. I am aware that one such option that is available to me is that I receive no treatment at all. Having considered the options and alternative procedures available to me, I have agreed to the specific Treatment Plan to be completed by my Doctor. I am aware that I have the absolute right to discontinue treatment at any time. I have been advised by my Doctor of the post-operative care that is necessary for me to receive after the procedure is performed at LVI, and I am aware that such post-operative care will occur at my Doctor’s office. It is my understanding that all follow-up/ remedial care will be rendered by my Doctor.

Patient Education Form Regarding Core VI Live

Treating doctor must complete this form with the patient before starting the course:
LVI Global • 1401 Hillshire Dr. Ste 200 • Las Vegas, NV 89134 • Fax (702)341-0983

As a patient of Dr. _____, I _____ understand the following information regarding my treatment in the CORE VI Live Course at LVI on _____, 20__.

I understand that my treatment is based on neuromuscular science and that this science utilizes an orthotic on the upper and/or lower teeth as a functional temporary mandibular repositioning appliance until my treatment is finalized by completion with permanent restorations.

I understand that for a period of time prior to the first visit of the Core VI Live Course at LVI, I will be placed in an orthotic repositioning device(s) on the lower and/or upper teeth to establish and maintain my neuromuscular occlusal position. At the first appointment for Core VI Live at LVI the device(s) will be removed; the upper and lower teeth will be prepared and temporary restorations will be placed on the upper and lower dentition. At the final appointment for the Core VI Live at LVI, approximately one month later, the permanent restorations will be placed on the upper and lower dentition. Between the two appointments, I will be contacted by my doctor from his/her office to ascertain my comfort and the health of the dentition.

I do understand that although final restorations will be placed, there will be some required refinements to these restorations after cementation. To properly complete the occlusal changes my doctor will begin in this course, neuromuscular science will be used and will always need to be considered in order to protect the restorations and established occlusion that will be placed by my doctor in the for the Core VI Live Course at LVI Global.

Documentation of Work Done at Home Office

DOCUMENTATION OF WORK DONE AT HOME OFFICE IN PREPARATION OF THE PATIENT AND TREATMENT PLAN

Please complete this form in its entirety. Do not leave any portion of question #3 unanswered. This should be completed from both a liability and dental standpoint. **Note:** (Please do not make travel plans prior to receiving approval of your case. The earlier that you get the case information in, the easier it is for you to plan.)

1. Please indicate any radiographs and/or tomograms you have taken of your patient in preparation for this course and the date taken. (please include dates)

2. Please indicate if a Smile Analysis was completed, and the date the diagnosis was determined.

***3. Please indicate the Treatment Plan including:

a) **treatment options** that have been presented to your patient,

b) **option** you and your patient **chose**,

c) **age and sex** of your patient

d) **exact treatment plan** to be preformed (**including detail**).

I hereby verify and confirm that _____ is my patient of record. I also agree that I am responsible for all the follow-up remedial care on my patient for this course.

Preferred K7 Scans for Core VI Live Case Submissions

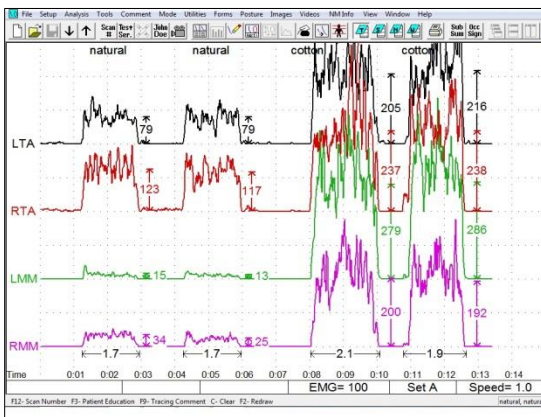

Scan 9 - Rest/CO Natural

Scan 10 - Rest/Light CO in Orthotic

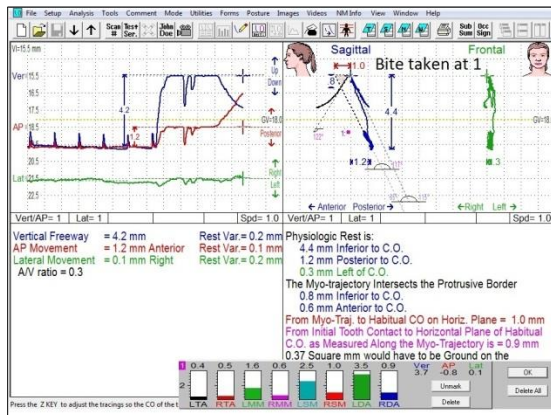

Scan 11 - Natural x 2 and Cotton x 2

Scan 11 - Orthotic x 2 and Cotton x 2

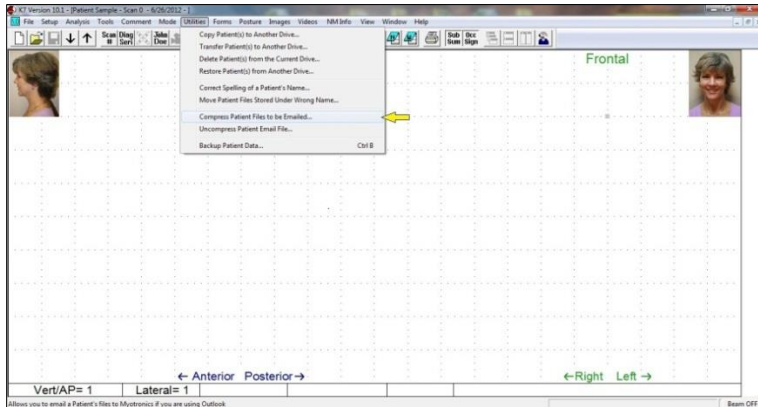

Scan 4/5 - Mark your EMG's and screen comment what bite position you chose.

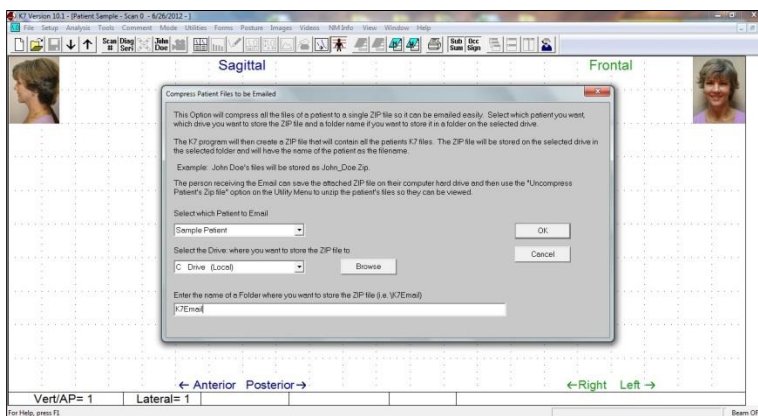

Instructions for Sending K7 Scans via E-mail:

1. Open the K7 program and select your patient.
2. Under the 'Utilities' tab, click on 'Compress Patient Files to be Emailed...'.
3. Verify patient name under "Select which Patient to Email". Select the drive you want to store the Zip file on or use the 'Browse' button for a more specific location (such as the Desktop).

3. Verify patient name under "Select which Patient to Email". Select the drive you want to store the Zip file on or use the 'Browse' button for a more specific location (such as the Desktop).

4. Go to the drive where you placed the file (in this case, the C drive) and open the K7Email file you just created. This 'Compressed Zip Folder' is what you will attach to your Email.

Fixed Orthotic Bite Transfer

- 1) Prior to bite transfer appointment, take impression of fixed in patient's mouth, pour up model, and make a new Sil-tech stent to fabricate a new fixed orthotic.
- 2) At appointment, TENS patient for an hour to ensure they are on their neuromuscular trajectory.
- 3) Verify 3 verticals (Right/Anterior/Left) in the patient's mouth.
- 4) Place bite reg over the fixed orthotic in the patient's mouth. Have patient close into bite reg. This is the NM CO bite. Verify 3 verticals.
- 5) Using a model of their natural dentition as guide, section fixed orthotic from mesial of central incisor to mesial of 2nd molar (or whatever tooth is your "distal stop").
- 6) Remove fixed orthotic. Place NM CO bite reg back into patient's mouth on the upper arch. Reline CO bite reg in the area of the sectioned orthotic. Have the patient close. Verify 3 verticals.
- 7) Section fixed on the other side until the mesial of 2nd molar (or whatever tooth is your "distal stop"). Remove orthotic.
- 8) Reline NM CO bite reg—avoid overlapping the bite reg with any previously relined segment. Have patient close. Verify 3 verticals.
- 9) Remove last posterior stops of the fixed orthotic. Reline NM CO bite reg (avoid overlapping) and have patient close. This is the completely relined fixed orthotic Bite Transfer.
- 10) Verify 3 verticals—R/Ant/L. Verticals should be the same as when fixed orthotic was in.
- 11) Take Upper (include HIP)/Lower PVS impressions & symmetry bite.
- 12) Using the new stent, fabricate a new fixed orthotic. Verify 3 verticals.
- 13) Send to LVI trained lab:

- ◇ 1 completely relined Bite transfer
- ◇ Upper (include HIP)/Lower PVS impressions
- ◇ Symmetry bite
- ◇ Full face photo of symmetry bite on patient
- ◇ Bite Management sheet
- ◇ Smile Design evaluation

Removable Orthotic Bite Transfer

- 1) Take upper & lower PVS impressions of the natural dentition and pour up models
- 2) Mount upper to HIP on Stratos prior to Bite transfer appointment
- 3) At appointment, TENS patient for an hour so they are on their neuromuscular trajectory
- 4) Verify 3 verticals in removable orthotic—Right/ Anterior/Left
- 5) Place bite registration over removable orthotic and have patient slowly close into bite registration. Orthotic should feel stable in the bite. Verify that verticals are the same.
- 6) Remove the orthotic/bite reg from the patient's mouth. Place it on the mandibular model. Before mounting to upper, hand articulate the lower to the upper to verify that the 3 verticals are the same as in the patient's mouth. Mount lower to upper HIP model using the orthotic/bite reg.
- 7) Once mounting is set, remove the orthotic/bite reg, and verify 3 verticals—R/Ant/L.
- 8) Using the mounted models, place bite reg on lower model and close the Stratos into the bite reg. Verify 3 verticals. This is the removable orthotic Bite Transfer. (Make 2 bite transfers-1 for Dr and 1 for lab)
- 9) Verify Bite Transfer(s) in the patient's mouth—R/ Ant/L. All measurements should be the same as when you first started.
- 10) Return removable orthotic to patient
- 11) Send the following to an LVI trained lab:
 - ◇ Mounted models
 - ◇ 1 Bite transfer
 - ◇ Upper (include HIP)/Lower PVS impressions
 - ◇ Symmetry bite
 - ◇ Full face photo of symmetry bite on patient
 - ◇ Bite Management sheet
 - ◇ Smile Design evaluation

Assistants

It is mandatory that participants bring an assistant to the program unless auditing. You can register your assistant as a “clinic only” team member; however, as a full participating registrant your assistant will have access to lectures, meals and other activities that the Clinic Only assistants are prohibited from attending.

Course Change and Cancellation Policy

Registration fees are non-refundable and must be exercised within two years. LVI Global, LLC (“LVI”) reserves the right to cancel courses 30 days prior to the scheduled date of a course or activity. Should LVI cancel a course or activity, LVI will apply the full value of any deposits and fees related to said course or activity to future LVI course or activities. Should LVI cancel a course or activity, you may also have the option of having the deposits returned to you. Fees remain non-refundable but, may be reapplied to another course or activity. LVI will not be responsible for any other fees, costs or consequential damages associated with canceling this LVI course or activity. For courses requiring a live-patient, the treating Doctor must bring a patient of record. During courses conducted at LVI, I understand that photographs or video may be taken of me for educational and marketing purposes. I hold harmless LVI for any liability resulting from this production. I waive any right to inspect the finished production as well as advertising materials in conjunction with these photographs. I understand that I may receive marketing materials as a result of my attendance.

Change/Cancellation/Postponement Policy:

- A change, cancellation or postponement of course date is not complete without your required signature and date.

The following do not apply if moving from TBD status to date selection

- If change, cancellation, or postponement is received 60-90 days prior to registered course, 25% of the course fee will be forfeited.
- If change, cancellation, or postponement is received within 60 days, 50% of the course fee will be forfeited.
- If change, cancellation, or postponement is received less than 30 days prior to your registered class, 100% of the course fee will be forfeited.

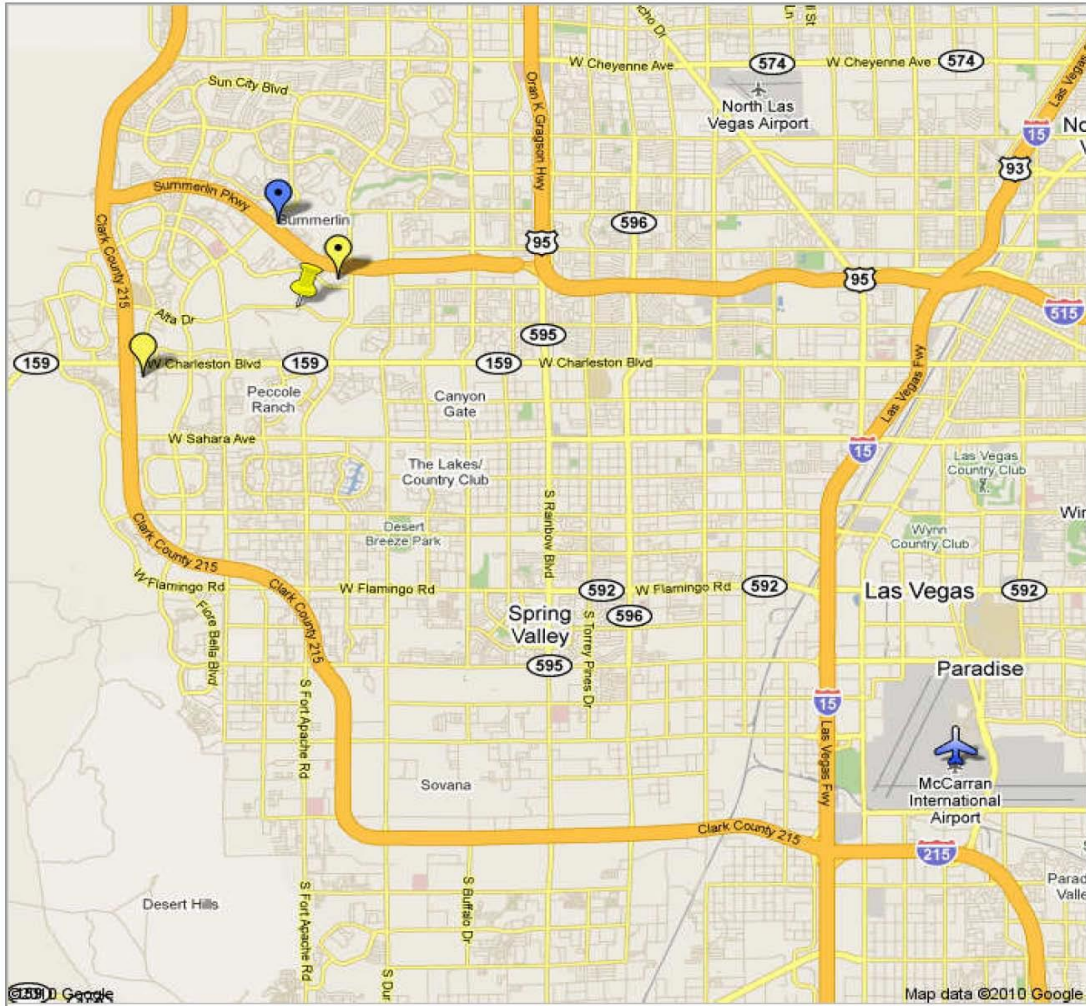

Travel Information

Please note travel expenses are not included in your tuition. Visit the [LVI Global website](#) for the most up to date travel information.

Frequently Asked Questions

What is the weather like in Las Vegas?

In the winter months temperatures range from 15-60°. In spring the weather is nice with highs between 70-80°. Summer months are hot, highs up to 110°, with nice warm summer nights. In the fall it cools down with temperatures back around 70-80 degrees.

What should I wear when I come to LVI?

Business casual. We tend to keep the building cold so you might want to bring a light sweater.

What should I wear if I am treating a patient in the clinic?

Just as you would in your office, appropriate Clinical Attire is expected at LVI. Attire should conform to OSHA/CDC guidelines and regulations, and should include protection like closed toed shoes for all of the team in the clinical setting.

Is food served at LVI?

A continental breakfast is served at 7:00 each morning and lunch is provided each afternoon. Snacks are also available throughout the day.

How far is the Las Vegas Strip from LVI?

Approximately 12 miles. It could take up to 30 minutes with traffic.

Do you provide transportation to LVI?

LVI provides transportation *only* from The Red Rock Hotel and JW Marriot Hotel. Check with the Bell Stand for pick up times on course days.

Where do I check-in when I first arrive at LVI?

For every course you attend at LVI, you must check-in on the first day in the **Hillwood Building (Building with the purple rotunda)**. You will be directed to breakfast at registration.

CE Information

How many CE hours can I expect to receive from this course?

After completing this program, you will receive a CE form of the appropriate AGD approved continuing education credit hours. These credits represent the lecture and participation portion of the course.

When will I receive my CE credits?

Your CE form will be presented along with your attendance medallion and/or letter. Please keep a copy of this form in your office records.

Does LVI submit my CE credits for me?

We will submit your CE credits to the AGD if you provide us with your AGD number. It is your responsibility to keep the CE form indicating your credits on file in your office and, if necessary submit your CE hours to the appropriate organization(s) (i.e.: your state/territory, etc.).

What happens if I lose my CE letter?

Once you receive your CE form, hold on to your originals and send copies when submitting your organizations. If your original letters are misplaced, LVI must charge a \$30.00, per course, processing fee for necessary research. Replacement CE letters can take up to 3 weeks to receive.

Educational Objectives:

The educational objectives for this course are for the participants to be able to:

- 1) Accurately equilibrate a case for maximum function.
- 1) Understand and the epitome of care and treatment that a restorative dentist can provide patients.
- 1) Identify parameters of good joint health.
- 1) Understand the use of K-7 to optimize diagnosis and treatment planning.
- 1) Utilize good communication practices between the doctor and the laboratory.
- 1) Utilize best practices in providing rapid full mouth cementation.
