Webinar Registration Requirements

The purpose of LVI is to educate and make sure that the attending doctors get the information. When at LVI we can be assured they are paying attention. When we give a webinar we have no idea if they are even listening to the lectures. To us, this is not about money or CE credits. To us it's about creating the best doctors in the world. Therefore we want everyone attending a webinar to treat it like they are in the lecture hall at LVI. If you cannot agree to that, do not register for the webinar.

Because of that there is to be no scheduling the webinar around patients. That's asking for trouble and you know it. In the past, too many have had to leave a webinar and missed VERY important information. Recently we had someone that missed 2/3rds of the webinar because he felt he had to see an emergency patient. Not only is that disrespectful to the presenter and all their hard work they have put into the presentation, as it's like getting up and walking out of their lecture, it means the person watching did not get the information and should not be awarded the CE credits for the course.

So we need you to agree to the following:

- I will not watch this from my office unless I need to be there for hands on like with the BioPAK or CBCT. *You can actually do those at home as well.*
- I will not leave the webinar for an emergency patient.
- I will be away from all distractions.
- I will not be on my phone and treat it like I'm at LVI.
- I will pay attention the entire time.
