# Team Participation

It is highly recommended that doctors bring team members to the program unless auditing. As a full participating registrant your team members will have access to lectures, meals and other activities. Team attendees are introduced to clinical and practice procedures that will enable them to not only appreciate their role much but share in the learning experience that is custom designed to parallel the program in which you are attending. Previous Team program attendees report that participating in the Team program enhances their comprehension the skills and techniques learned by the doctor offering a quicker transition of the skills learned when returning home. Historically, Doctors who are accompanied by their entire office Team start faster and find it easier on their return to the practice. Your team will return inspired, committed to this high value dentistry and are able to communicate its value to your patients.
